SPECIALTY ALUMINUM TRIMS + EXTRUSIONS

WELCOME TO EAGLE MOULDINGS INC.

Eagle Mouldings is your single source for specialty aluminum trims and extrusions. From standard shapes, to custom specialty and decorative trims, to functional prototype fabrication - Eagle Mouldings is uniquely able to provide your aluminum solutions on spec, on time and on budget.

As a supplier of aluminum trims and extrusions, Eagle Mouldings provides access to a nationwide network of manufacturers. Eagle Mouldings pools multiple resources to assure we can meet your requirements, delivering the right products, at the right time, and at the right price.

A VITAL COMPONENT OF SUSTAINABLE BUILDING.

With the drive to produce more “green” buildings, structures and vehicles, Eagle Mouldings is proud to promote the sustainable benefits of strong, lightweight, recyclable aluminum. For more on the green benefits of aluminum, visit the Aluminum Extruders Council (AEC). We stock a large supply of custom and hard-to-find trims, as well as standard aluminum shapes.

OUR BUSINESS IS CUSTOMER SATISFACTION.

Eagle Mouldings was founded in 1989 with the belief that premium products along with outstanding customer service would pass the test of time. Twenty years later, Eagle Mouldings still believes our customers’ satisfaction drives the way we do business. Our customers have come to recognize Eagle Mouldings as their single source for custom or hard-to-find aluminum trims and extrusions, fast turn-around, great pricing, and personalized customer service.

We stock hundreds of custom and hard-to-find aluminum trims and extrusions, as well as standard aluminum shapes. We work with the top extruders within the industry, providing us access to over 10,000 different dies and shapes. If, however, your project demands a custom aluminum extrusion, we will help you engineer and design the perfect die solution for your requirements. In short, if we don’t have what you need, we’ll help you find it, or help you create it.

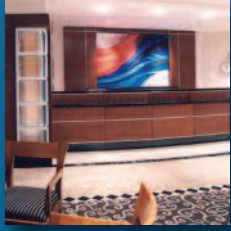

Eagle Mouldings distributes to customers across North America, from our central offices in Minneapolis, Minnesota.

***“We appreciate a challenge
and value the opportunity
to serve you.”***
