Eagle Mouldings Inc has been serving customers since 1989. We take pride in our history of supplying specialty extrusions and custom dies. Many items shown in this catalog are carried in stock. In addition to these shapes, Eagle offers over 10,000 open dies available for your use with a minimum order run. We dedicate this book to you, our customer, and hope that you will find it a valuable tool to improve your sales and profits through our ability to provide the wide range of services found at Eagle.

 2. Un-punched 6 & 12 ft. lengths
 3. Punched 6 & 12 ft. lengths
 4. Custom lengths
- Punched every 8" on center.

Eagle Mouldings is a leading supplier of Specialty Aluminum Trims and Extrusions. We specialize in creating custom dies for almost any aluminum trim or shape. Hanging things on the wall has never been easier. The easy-to-use **EAGLE-CLIP Z Clips** are a fast and cost effective method to hang, fasten and secure any kind of wall panel, acoustical panel, partition, frame, cabinet, sign, mirror or piece of artwork. The **EAGLE-CLIP Z Clips** wedge together locking panels or whatever your wanting to hang, in place. **EAGLE-CLIP Z Clips** provide for easy and fast removal or dismounting of panels as well. To disengage panels, simply lift and remove! Since **EAGLE-CLIP Z Clips** remain concealed, the clips allow for pre-finishing without time consuming face nailing or costly on-the-job finishing. Installation time and costs can be cut by over 50% when using **EAGLE-CLIP Z Clips**. We ship **EAGLE-CLIP Z Clips** a pair at a time or by the pallet anywhere in the country.

Advantages of Colored Corners

- Because you can't see through it, there is no need to patch any imperfections that your corner may have.
- Can be glued on eliminating the need for screws resulting in a cleaner look. Custom drilling or tape available special order.

Retro & Nostalgie 50's Aluminum Trims

Thank you for visiting us at Eagle Mouldings. We are your number one source for hard to find classic, retro and nostalgic 1950's trims.

Our retro polished aluminum and chrome looking aluminum trims are used in many applications and environments. Our vintage looking edgings are used in building out classic 50's diners, 50's malt shops and 50's kitchens as well as any other room you want to bring the classic fifties or retro look to.

Our mouldings are used for building classic restaurant furniture, table and chair edging, face nosing, bar nosing, counter coves, chairs, booths.

Eagle Mouldings specializes in Custom Aluminum Extrusions. If you don't see what your looking for, we can find it or create it for you.

Superior Features of Uniflex Rub Rail

- One piece semi-rigid inner core and a flexible outer body.
- Retains its shape when flexed, doesn't crimp, easing insert installation.
- Flexes predominately in one direction, easily bending around corners.
- The system is more efficient in bearing the load of fasteners, greatly reducing "fastener bulges."
