Eagle Mouldings Inc has been serving customers since 1989. We take pride in our history of supplying specialty extrusions and custom dies. Many items shown in this catalog are carried in stock. In addition to these shapes, Eagle offers over 10,000 open dies available for your use with a minimum order run. We dedicate this book to you, our customer, and hope that you will find it a valuable tool to improve your sales and profits through our ability to provide the wide range of services found at Eagle.

- **MF**...............................Mill Finish or As Extruded
- **POL**.............................Polished to a Bright Mirror-Like Finish

Other Finishes Available on a Special Order Basis Include Electro Static Painting, Powder Coating, Hard Coat Anodizing and Straight Lining.
Eagle Mouldings is a leading supplier of Specialty Aluminum Trims and Extrusions. We specialize in creating custom dies for almost any aluminum trim or shape. Hanging things on the wall has never been easier. The easy-to-use **EAGLE-CLIP Z Clips** are a fast and cost effective method to hang, fasten and secure any kind of wall panel, acoustical panel, partition, frame, cabinet, sign, mirror or piece of artwork. The **EAGLE-CLIP Z Clips** wedge together locking panels or whatever your wanting to hang, in place. **EAGLE-CLIP Z Clips** provide for easy and fast removal or dismounting of panels as well. To disengage panels, simply lift and remove! Since **EAGLE-CLIP Z Clips** remain concealed, the clips allow for pre-finishing without time consuming face nailing or costly on-the-job finishing. Installation time and costs can be cut by over 50% when using **EAGLE-CLIP Z Clips**. We ship **EAGLE-CLIP Z Clips** a pair at a time or by the pallet anywhere in the country.

**Panel Z Clips**

In Stock - Available Options
1. Pre-cut & punched 2" clips
2. Un-punched 6 & 12 ft. lengths
3. Punched 6 & 12 ft. lengths
4. Custom lengths
   Punched every 8" on center.

Custom Lengths, Drilling or Tape are available Special Order with no minimum.

WALL GUARDS

Available in 3" or 4" width

WG-3 3" wide x 8’ length
WG-4 4" wide x 8’ length

Corners, wall ends & partitions are especially subject to impact abuse. Every corner Eagle Mouldings sells is made of Lexan, the high impact polycarbonate material used in car Bumpers. Clear Lexan corner guards are guaranteed to last for years without cracking, chipping, warping, or yellowing.
Advantages of Colored Corners

- Because you can't see through it, there is no need to patch any imperfections that your corner may have.
- Can be glued on eliminating the need for screws resulting in a cleaner look. Custom drilling or tape available special order.

Retro & Nostalgic 50’s Aluminum Trims

Thank you for visiting us at Eagle Mouldings. We are your number one source for hard to find classic, retro and nostalgic 1950’s trims.

Our retro polished aluminum and chrome looking aluminum trims are used in many applications and environments. Our vintage looking edgings are used in building out classic 50’s diners, 50’s malt shops and 50’s kitchens as well as any other room you want to bring the classic fifties or retro look to.

Our mouldings are used for building classic restaurant furniture, table and chair edging, face nosing, bar nosing, counter coves, chairs, booths.

Eagle Mouldings specializes in custom aluminum extrusions. If you don’t see what your looking for, we can find it or create it for you.

Classic Replica Aluminum Trim of the 40’s and 50’s

- Corrugated Face Bar
- Cove
- Fluted Tee
- Fluted Face Angle
- Grooved Face Nosing
- Insert Nosing
- Plain Face Nosing

FINISH DATA
BA .... Buffed & Clear Anodized
POL .. Polished to Mirror Like Finish
BD .... Brite Dipped, Anodized
BBD .. Buffed, Brite Dipped, Anodized
Aluminum tee friction fitted into the groove.

For Radius Corners
Cut a square notch out of the leg the distance of the actual bend.

Available in 2, 3 or 4 Wing Cutters w/Bearing Assembly

**EAM-555 Sign System**

- High strength design.
- Easy to assemble with the angle bracket corners.
- This multiple channel design gives designers more options. Example, graphics can be applied to both clear panels positioned to give a multi directional look.
- Available finishes: powder coating, clear, bronze & black anodizing.

**Side or Top That Removes**

For #10 type F stainless steel screws use 11/64" drill bit and use a lubricant on the screws.

**Notched Angle**

Notched angle attached to channel with self drilling screw.

**Use Center punch to secure permanent sides**

3" x 3" or 2" x 3"

Superior Features of Uni Flex Rub Rail

- One piece semi-rigid inner core and a flexible outer body.
- Retains its shape when flexed, doesn't crimp, easing insert installation.
- Flexes predominately in one direction, easily bending around corners.
- The system is more efficient in bearing the load of fasteners, greatly reducing "fastener bulges."

Note: The shapes shown are available in other sizes and also can be mfg. in over 150 colors with a minimum order run. Shapes available include canoe rails, dock bumpers, ladder treads, toe & spray rails, galley trim, flats, U, tee & angle, hatch slides, specialty shapes & a complete variety of rub rails & related trim.
### Rub Rail Ends

- **SS-340-END**
  - Width: 3/4"
  - Lengths: 8", 12", 18" & 24"

- **SS-100-END**
  - Width: 1"
  - Lengths: 8", 12", 18" & 24"

- **SS-114-END**
