WELCOME TO EAGLE MOULDINGS

Since 1989, Eagle Mouldings strives to offer an extensive inventory, fast turnaround, and friendly customer service. As an aluminum extrusion company our main goal is to meet our customers’ requirements on time, on spec, and within budget. Whether you’re in the market for aluminum corner trim, aluminum Z-bar or clips, aluminum flat bar, aluminum hat channel, stackable aluminum slatwall, aluminum slatwall inserts, slatwall panels, aluminum french cleat, stainless steel corner guards and stainless steel kick plates made to your specifications, we carry a broad selection of high-quality products at fair, competitive rates.

COMPREHENSIVE INVENTORY

Our stocked warehouse of extrusions includes a variety of profiles guaranteed to benefit all types of customers, including the general public, architects, project managers, contractors, and engineers. From rectangular aluminum tubing and angles to aluminum edge trim to aluminum z-clip designs, we provide a large, continuously improving inventory. We also offer an excellent selection of aluminum square tubing connectors, T-slot aluminum extrusions, C channel aluminum, and aluminum rectangle tube. Whether your project calls for aluminum channels, Z clips, panel clips, panel z clips, aluminum tubing connectors, stainless steel corner guards, or slatwall inserts, Eagle Mouldings has your custom order and stock aluminum extrusions covered.

CUSTOM AND HARD-TO-FIND ALUMINUM TRIMS AND EXTRUSIONS

Eagle Mouldings stocks a huge variety of custom aluminum extrusions with an assortment of anodized finishes. As a trusted aluminum extrusion company and provider of custom aluminum extrusions, we also offer additional services in accordance with your exact specifications, needs and budget in mind. Light fabrication services include assembly, brushing, welding, cutting, punching, mechanical finishes and more.
STOCK ALUMINUM TRIMS & EXTRUSIONS
We stock hundreds of custom and hard-to-find aluminum trims and extrusions, as well as standard shapes. We work with the top extruders in the industry, providing access to thousands of different dies and shapes.

CUSTOM EXTRUSIONS & OEM EXPERTS
If your project demands a custom aluminum extrusion, we will help you engineer and design the perfect die solution for your requirements. If we don’t have what you need, we’ll help you find it or create a new profile.

- Custom Design
- Custom Dies
- Custom Extrusions
- Custom Finishes
- Custom Lengths
- Custom Packaging

LIGHT FABRICATION
Projects can be demanding, and we offer light fabrication services to help get your project complete. Our services include cutting to custom lengths, drilling or countersinking, deburring, punching, forming, bending, and assembly.

- Cutting to Length
- Mitering Corners
- Drilling
- Countersinking
- Punching
- Welding
- Forming, Bending
- Deburring
- Assembly
ALUMINUM FINISHES

Our anodized aluminum finishes come in several standard finishes as well as customized anodized finishes to help create the exact look you need. Custom aluminum finishes are available in anodized, mechanical, or painted finishes.

- Anodizing
- Bead Blasting
- Brushing
- Chemical Wash
- Painting
- Polishing
- Powder Coating
- Straight Lining

STANDARD ANODIZED FINISHES

SPECIAL ORDER ANODIZED FINISHES
INDUSTRIES SERVED
As a supplier of aluminum trims and extrusions, Eagle Mouldings provides access to a nationwide network of manufacturers. Eagle Mouldings pools multiple resources to assure we can meet your requirements, delivering the right products, at the right time, and at the right price.

EAGLE-CLIP™ ALUMINUM Z CLIP HANGING SYSTEM

Hanging things has never been easier. The Eagle-Clip Z Clips (aluminum z extrusions) are a fast and cost effective method to hang, fasten, and secure any kind of wall panel, acoustical panel, partition, frame, cabinet, sign, mirror or piece of artwork. Our specially engineered Eagle-Clip Z Clips allow for fast mounting and removal. Made from heat treated hardened aluminum and available in 1-1/2” and 2” clips, continuous lengths of 72” and 144” either punched or un-punched, the Eagle-Clip Z Clips make installation fast and easy.

HOW EAGLE-CLIP Z CLIPS WORK
To install, simply fasten one Z Clip to the wall and another to the panel you want to hang. The Z shaped clips wedge together locking the panels solidly and securely in place.

- Available in pre-cut and punched clip lengths (sold in bags of 20 or buckets of 1000)
- Available in punched (every 8” on center) or un-punched 72” and 144” lengths
- Easy to install
- Extremely strong
- Very secure

AVAILABLE Z CLIP PRODUCTS
Our entire line of aluminum Z clips and Z bar stock are engineered and temper-hardened for maximum strength and holding power. Our Z Clip product line consists of the Eagle Z-Clip, cleated bar or cleated rail, smooth bar or smooth rail, and aluminum Z bar. Whether you’re looking for a 3/8” lift-off, 5/8” lift-off, 1-1/2” wide, 2” wide, 3” wide, 1/4” standoff or 3/16” standoff, cleated or smooth, standard, custom or special order, Eagle Mouldings is ready to help you find the exact solution that fits your need.

EAM-375 EAGLE-CLIP
.375” LIFT-OFF

Available Size:
- 2.00” Eagle-Clip Grooved back
- 6’ (72”) continuous length z-bar
- 12’ (144”) continuous length z-bar
- Available in custom lengths

Features:
- Aluminum Alloy 6063-T6 temper in accordance with ASTM B221
- .375” lift-off
- .250” stand-off
- Continuous lengths are available unpunched or pre-punched holes every 8” on center
- Custom sizes and hole locations available

EAM-375-S (SMOOTH) EAGLE-CLIP
.375” LIFT-OFF

Available Size:
- 2.00” Eagle-Clip Smooth back
- 6’ (72”) continuous length z-bar
- 12’ (144”) continuous length z-bar
- Available in custom lengths

Features:
- Aluminum Alloy 6063-T6 temper in accordance with ASTM B221
- .375” lift-off
- .250” stand-off
- Continuous lengths are available
- Custom sizes and hole locations available
- Great for glass installation applications and applied with an adhesive

CUT INSTALLATION TIME BY AS MUCH AS 50%
Eagle-Clip Z Clips remain concealed after installation, allowing for pre-finishing without time-consuming face nailing or on-the-job finishing. Because of the ease of installation and cost-effectiveness, you can save as much as 50% by choosing Eagle-Clip Z Clips and Panel Hanger products.

CHANNELS SHOWN AT ACTUAL SIZE
ALUMINUM HAT CHANNELS
Hat channels are framing pieces shaped like a top hat. Because aluminum outperforms traditional hat channel materials like wood and steel, Eagle Mouldings specializes exclusively in aluminum hat channels. Eagle’s aluminum hat channels and furring channels are corrosion resistant and a fireproof extruded aluminum product. Furring channels and hat channels are used primarily to level out irregular or uneven surfaces on interior walls, exterior walls, ceilings, and masonry, saving a lot of time and unnecessary expense. Other names referred to hat channels are a furring channel, furring strip, hat track, or hat channel extrusion.

COMMON HAT CHANNEL APPLICATIONS
- Acoustic tiles/panels and soundproofing
- Architectural curtain walls
- Commercial construction
- Exterior wall cladding
- Furring (leveling) walls, ceilings, roofs
- Installing fixtures (cabinets, displays, ceilings)
- Rainscreen installations
- Renovation and remodeling
- Wall panel systems
- Store fixture and display installations
- Wall cladding
- Curtain walls

BENEFITS OF ALUMINUM HAT CHANNELS
- Lightweight (1/3 the weight of steel)
- Protection against fire and moisture
- Naturally resists corrosion, will not rust
- Resists warping, splitting, mold and mildew
- Easy to customize
- Simple installation
- Affordable, budget-friendly

VISIT US ONLINE EAGLE-ALUMINUM.COM
Eagle Mouldings is your number one source for hard-to-find classic, retro, and nostalgic 1950’s countertop trims and table edging strips. If you are looking for nostalgic aluminum trims, we have what you need. Aluminum kitchen counter table edging strips inject vintage style into any renovation. Our retro diner trims and mouldings will take your project instantly back to the 50’s. Adding trim to any laminate countertop or table protects the edge and introduces a classic flair. We also stock retro trim for your classic RV or trailer. Our polished table and counter edging is easy to maintain and keep clean. It’s the perfect addition to any classic, retro, or nostalgic 50’s project.

LEXAN CORNER GUARDS

Corners, wall ends, and partitions are especially subject to impact abuse. Eagle Mouldings Lexan corner and wall guards are made from the high impact polycarbonate material used in car bumpers. Clear Lexan corner guards are guaranteed to last for years without cracking, chipping, warping, or yellowing. Install with screws or brads.

LEXAN CORNER GUARDS

Clear Lexan corners made from high impact polycarbonate.

LEXAN CORNER GUARD COLORS

- Color Lexan corners made from high-impact polycarbonate.
- There is no need to patch any imperfections that your corner may have, because you can’t see through it.
- Corners can be glued and eliminate the need for screws resulting in a clean finished look. Custom drilling or tape available by special order.

LEXAN WALL GUARDS

KICK PLATES

When choosing aluminum kick plates versus stainless steel kick plates, keep in mind the intended use of the door. The standard height is anywhere from 6 inches to 24", but there are many different options available:

TYPES OF KICK PLATES

- **Mop Plate**: Usually 8” high and installed flush with the bottom of the door. Used to prevent janitorial mops from damaging the door.
- **Armor plate**: Anything up to 48” high, and covers the entire bottom half of the door.
- **Stretcher plate**: Commonly used in hospitals to prevent damage from gurneys and stretchers. Usually between 6” and 12” high, and installed at the approximate height of the handle, parallel to the floor.

A metal kick plate should always be ordered 2 inches narrower than the width of the door so that it doesn’t get in the way of the doorjamb when you are closing the door.

Call for pricing of stainless steel and aluminum kick plates today at **1-800-888-2044**.

KICK PLATES ARE CUSTOM MANUFACTURED TO YOUR SPECIFICATIONS

At Eagle Mouldings, we custom manufacture stainless steel and aluminum kick plates to your exact specifications and requirements.

When you place an order with us, please remember to specify the following:

- **Material**: Aluminum or Stainless Steel
- **Dimensions**: "A" length x "B" height
- **Thickness**: 16 or 18 Gauge
- **Finish**: Aluminum - Anodized, Aluminum - Mill Finish, Stainless Steel - Non-Brushed, Stainless Steel - Polished, Stainless Steel - Brushed #4
- **Holes**: Drilled or Undrilled
- **Corners**: Radius or Square
- **Quantity**: Total needed

BOAT / MARINE RUB RAIL

UNIFLEX RUB RAIL SYSTEM

- One-piece semi-rigid inner core and a flexible outer body.
- Retains its shape when flexed, doesn’t crimp, easing insert installation.
- Flexes predominately in one direction, easily bending around corners.
- The system is more efficient in bearing the load of fasteners, greatly reducing “fastener bulges”.

SIGNAGE, EXHIBITS

SIGN SYSTEM - EAM-555

- High strength design.
- Easy to assemble with the angle bracket corners.
- This multiple channel design gives designers more options. Example, graphics can be applied to both clear panels positioned to give a multi-directional look.
- Available finishes: powder coating, clear, bronze or black anodizing.

For #10 type F stainless steel screws, use 11/64” drill bit and use a lubricant on the screws.

A-50 Channel used on larger signs for added support.

Use center punch to secure permanent sides.

EAM-555-C Corner Angle

EAM-555-NC Notched Angle attached to A-50 Channel with self-drilling screw
