#### **FIELD PAINTING INSTRUCTIONS**

Clean and prep mill finish (MF) trim in accordance with the paint manufacturer's best practices. Ensure paint and primer is recommended for aluminum via paint manufacturer. Apply coating until desired finish is achieved.

*Painting Clear Anodized:* This is generally not recommended, but can be achieved when necessary. Clean and treat aluminum with an acid etch solution. Rinse thoroughly and dry. Apply an acid-etched prime/ primer based on the paint manufacturer's best practices. Apply paint coating per paint manufacturer's specifications.

### **CUTTING INSTRUCTIONS**

When necessary, cut material using a miter saw with a high-quality, non-ferrous carbide blade with a minimum tooth count of 80, and lubricant. Clean trim prior to installation. Refer to saw blade manufacturer's best practices for additional information.

#### WARRANTY

Eagle Aluminum's warranty covers manufacturing defects for a period of three years. Refer to Eagle Aluminum's warranty documentation for additional details.
